

THE POWER OF

COOPERATIVE PURCHASING

Sourcewell 

Awarded Contract

Contract # 081325-CRE

YOUR FIRST CHOICE FOR SIMPLER PROCUREMENT

When you choose Model 1 through your Sourcewell membership, you gain a streamlined partnership where the traditional, resource-heavy RFP process has already been handled. Model 1 takes care of the required documentation to satisfy most local bidding requirements, saving your team months of administrative work. By leveraging pre-negotiated, volume-based pricing, you can maximize your budget's purchasing power, getting the vehicles your community needs without the typical delays of a solo bid.

You deserve a partner that looks beyond the initial sale to the entire life cycle of your fleet. By making Model 1 your first choice, you access a level of scale and speed that ensures your specific chassis and upfit requirements are met immediately, rather than waiting on backlogged competitors. Benefit from a “best-fit” vehicle strategy tailored to your unique operational goals, backed by a nationwide service network that keeps your drivers on the road.

For your agency, choosing Model 1 means choosing the most efficient, reliable route to a modernized fleet and long-term peace of mind.
