

INTRODUCING HARBINGER'S HC SERIES CAB.

[Learn More](#)

BUILT ON OUR CLASS-LEADING CHASSIS.

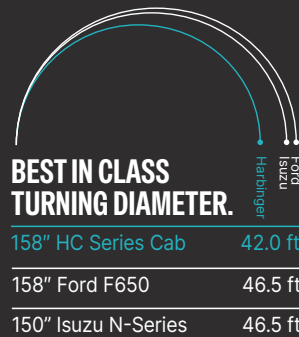

The HC Series Cab delivers flexibility, durability, and lower total cost of ownership.

Shared platform across Harbinger vehicles simplifies service parts and maintenance processes.

Consistent service intervals support mixed fleets and reduce operational complexity.

Proven chassis architecture delivers the same performance, efficiency, and serviceability across

GREATER MANEUVERABILITY.

DRIVER BENEFITS VS OTHER CHASSIS CABS.

Maneuverability

Independent front suspension with a best-in-class turning radius combined with EV responsiveness improves control & confidence in tight urban environments.

Driver Comfort & Visibility

The HC Series Cab driving position improves sightlines, while a low frame height reduces effort during frequent loading and unloading.

Repairability & Uptime

Modular bumper design simplifies front-end repairs, while electric drivetrains reduce maintenance complexity and support higher vehicle uptime.

Cargo & Payload Efficiency

The HC Series Cab design enables a larger cargo box on a shorter wheelbase, increasing usable volume without increasing overall vehicle length.

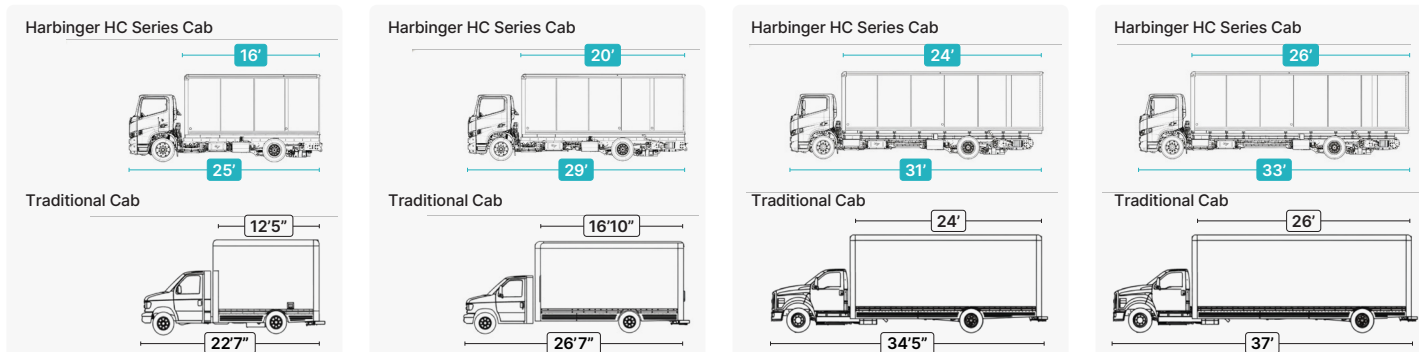

AVAILABLE IN MULTIPLE CONFIGURATIONS.

Learn More:

MORE CARGO IN A SHORTER TRUCK.

Harbinger's HC Series Cab design maximizes box length within a shorter overall footprint compared to traditional cab configurations.

158" Wheelbase

Cab Axle: 129.6"

16,000–22,000 GVWR
(Class 4, 5 & 6)

Overall Length: 23'

Cargo Vol: Up to 990 cu ft
(97" box height)

Turning Diameter: 42'

Available box size: 16–18'

178" Wheelbase

Cab Axle: 149.6"

19,500–26,000 GVWR
(Class 5 & 6)

Overall Length: 27'

Cargo Vol: Up to 1,240 cu ft
(97" box height)

Turning Diameter: 50'

Available box size: 20–22'

208" Wheelbase

Cab Axle: 179.6"

19,500–26,000 GVWR
(Class 5 & 6)

Overall Length: 29'

Cargo Vol: Up to 1,490 cu ft
(97" box height)

Turning Diameter: 56'

Available box size: 20–26'

235" Wheelbase

Cab Axle: 206.6"

26,000 Lb GVWR
(Class 6)

Overall Length: 31'3"

Cargo Vol: Up to 1,800 cu ft
(97" box height)

Turning Diameter: 60'

Available box size: 24–26'

Proven Reliability & Durability

Designed for 450,000 mile-endurance and built for a 20-year service life.

Advanced Technology

ADAS and telematics systems deliver smarter fleet management and safer operations.

Flexibility

Available with multiple body and lift gate options.

Maximum Payload

Competitive in Class 4–5, leading payload-to-GVWR ratios in Class 6.

Warranty

Complete Stripped Chassis:

5 YEARS / 60,000 MILES*

Drivetrain:

10 YEARS / 200,000 MILES*

Frame:

10 YEARS / UNLIMITED MILES*

Propulsion Battery Pack:

10 YEARS / UNLIMITED MILES / 2000 CYCLES*

* Whichever comes first
